Appl. No. **Filed** 

09/740,211

**December 18, 2000** 

The pharmaceutical composition of Claim 3 wherein said tissue-specific promoter comprises a hyer-specific promoter.

- 5. The pharmaceutical composition of Claim 2 wherein at least one of said first and second nucleotide sequences comprises a human growth hormone polyadenylation signal.
- The pharmaceutical composition of Claim 2, wherein said first nucleotide sequence encodes the light chain of Factor VIII protein; and wherein said second nucleotide sequence encodes the heavy chain of Factor VIII protein.
- The pharmaceutical composition of Claim 2 wherein at least one of said first and second nucleotide sequences further comprises a promoter from the human elongation factor  $1\alpha$ gene.
- A pharmaceutical composition comprising a recombinant adeno-associated virion 8. comprising a nucleotide sequence encoding at least one functional Factor VIII subunit, operably linked to a tissue-specific promoter.
- 9. The pharmaceutical composition of Claim 8 encoding a functional Factor VIII protein.
- 10. The pharmaceutical composition of Claim 8 wherein said tissue-specific promoter comprises a liver-specific promoter.
- The pharmaceutical composition of Claim 8 wherein said nucleotide sequence 11. comprises a heavy chain and a light chain, and wherein said nucleotide sequence further comprises a junction that operably links said heavy chain and said light chain.
- 12. The pharmaceutical composition of Claim 11, wherein said junction has the amino acid sequence Ser-Phe.
- 13. The pharmaceutical composition of Claim 11, wherein said junction has the amino acid sequence of SEQ ID NO:15.
- 14. The pharmaceutical composition of Claim 8, wherein said nucleotide sequence comprises SEQ ID NO:13.
- 15. The pharmaceutical composition of Claim 8, wherein said nucleotide sequence comprises SEQ ID NO:14.
- The pharmaceutical composition of Claim 10, wherein said promoter comprises 16. the HNF-3 albumin promoter.
